- Olympic Valley Mutual Water Company Board Meeting

All-Staff Meeting

In mid-March, the District held a quarterly all-staff meeting, with employees from Administration, Operations, and the on-call Fire Department shift in attendance. This was the second all-staff meeting, and it was great to see so much participation, with different staff members taking the lead throughout the meeting. The March agenda included departmental updates, discussion of the SharePoint transition and a presentation/activity led by the Operations Department related to water meter technology and replacement efforts.

Advanced Clean Fleet Regulations

SB 496 is a priority piece of legislation that amends the State's Advanced Clean Fleets Regulation. The Bill requires the California Air Resources Board (CARB) to establish an Appeals Advisory Committee to review denied appeal requests for exemptions from Advanced Clean Fleets Regulation requirements. The bill also expands the emergency vehicle exemption to include vehicles involved in disaster services, as described in Section 3100 of the Government Code. The majority of the District's vehicles subject to Advanced Clean Fleets Regulations would reasonably qualify for this proposed exemption. The California Special Districts Association, the League of California Cities, the California State Association of Counties, and the Rural County Representatives of California are co-sponsors of SB 496.

DATE PREPARED: March 20, 2025
